SWEDISH

Ideal for relaxation that is one of our most popular massage techniques with a combination of movements to relax muscle tension and relieve emotional tension.

DEEP TISSUE

Relieves muscle pain and removes knots with gentle but strong pressure, reaching deeper muscle layers.

SPORTS

Combines deep tissue techniques and assisted stretching. It is a great technique to relieve muscle pain and improve flexibility.

PRENATAL

Techniques to relieve back pain, tired legs and improve circulation. This massage is designed for future moms after their third trimester.
